

**Capability Statement**

**Partner with MMS**

# **Choose your pathway to performance.**

**Unlock flexible tailored solutions that align with your project goals, operational needs and deliver results fast.**

At MMS, we understand that every mining project is unique. That's why we've developed a suite of partnership models, offering you a clear starting point to achieve your specific objectives. Explore our core partnership options and discover how MMS can become your trusted ally in unlocking the full potential of your mining venture.

## Choose your pathway

Backed by our core principles of strong relationships, technical excellence, and a results-driven approach, MMS is ready to partner with you, whichever pathway you choose.

1.

### Contract Mining

Expertise you can rely on.

**MMS delivers fully tailored contract mining solutions, designed for your exact operational requirements.**

Our experienced teams and extensive fleet ensure efficient, reliable, and high-performing operations.

2.

### Joint Venture Opportunities

Shared vision, shared success.

**Explore collaboration with MMS through strategic joint ventures.**

We bring operational excellence and financial acumen, helping to get your project off the ground. Our expertise ensures effective cost recovery and significant shared profits.

3.

### Funding Strategy Solutions

Your optimal path.

**Considering the future of your mining asset? MMS offers a strategic approach to achieve the best outcome.**

Whether it's a potential sale or innovative funding, we tailor flexible financial strategies to your specific needs, maximising asset value.

## Why MMS?

# Because results matter.

You need a partner who understands your challenges and has the expertise, agility, and commitment to deliver exceptional results.

You need a partner who is results-driven, with a proven track record built on strong relationships, technical excellence, and a “*Get It Done*” mentality.

## That partner is MMS.

### **Strong Relationships:**

Lasting partnerships based on trust and open communication.

### **Technical Excellence:**

Expert in-house team.

### **Extensive Experience:**

Over 100 years of combined industry leadership experience.

### **Results-Driven:**

We focus on execution and delivering on promises, on time and within budget.

### **Agility and Flexibility:**

Our agile decision-making and efficient project execution allow us to adapt swiftly to your needs.

### **Rapid Response:**

We pride ourselves on rapid response times and efficient mobilisation.

### **Strategic Fleet Management:**

We proactively manage our modern fleet and acquire new equipment as needed.

## Our values

### Safety

People and their safety always comes first.

### Teamwork

We always work together and support each other.

### Respect

We value all people and are committed to treating them with dignity and fairness.

### Sustainability

Committed to pursuing growth in a responsible manner.

### Performance

We always deliver high-quality, effective and efficient solutions.

## Our leadership

### Rob Ryan

Chief Executive Officer

With his extensive experience in the mining sector, Rob has a proven track record of leading successful projects and driving business growth. His strategic vision and unwavering commitment to excellence are instrumental in guiding MMS's continued success.

**The expertise  
of our people  
ensures we deliver  
on every project.**

**Let's get it done,  
together.**

## **David Smith**

### **Chief Operating Officer**

David brings a wealth of operational expertise to MMS, ensuring efficient and effective project execution across all areas of the business. His leadership and focus on optimisation drive continuous improvement and maximise productivity.

## **Beau McCarthy**

### **Chief Financial Officer**

Beau is a highly experienced finance professional with a strong background in the mining and logistics sectors. He brings extensive expertise in financial reporting, treasury management, and cost optimisation to MMS, strengthening financial performance and driving operational efficiency.

## **Brent Clinch**

### **Chief Marketing Officer**

Brent brings over 16 years of marketing experience, including a deep understanding of the mining industry, to MMS. His strong leadership and business acumen, combined with a passion for building strong brands through market research and client knowledge, ensures customers are always at the heart of every initiative.

## **Jason Walker**

### **General Manager Mining**

Jason brings over 20 years of experience in the mining industry to MMS, encompassing exploration, drill and blast, operations, and extensive leadership experience. He specialises in developing tailored solutions for challenging mining projects, from planning through execution, and excels at building high-performing teams.

## **Emma Edwards**

### **Chief Development Officer**

Emma is an accomplished geologist with over 15 years of experience in the mining industry. She brings extensive expertise in exploration and resource development, playing a key role in advancing MMS's geological services and optimising operations for exceptional results.

## **Nathan Ramm**

### **Head of Technical Services**

Nathan leads MMS's technical team, providing innovative solutions and expert advice to our clients. His technical expertise and commitment to continuous improvement ensure MMS remains at the forefront of the industry, leveraging the latest technologies and best practices.

# Our mining solutions

## Resource & Grade Control Drilling

Full execution and management of geological drilling programs from exploration through to grade control.

## Load & Haul Services

Complete mining solutions.

## Project Development

End-to-end management of mine development, including feasibility studies, environmental and heritage assessments, and approvals.

## ROM Management – ROM Loaders

Full support of payload technology on equipment.

## Crushing & Screening

Tailored crushing and screening solutions from ROM to final product.

## Transport & Mobilisation

Mobilisation and demobilisation with a fleet of floats.

### Mine Production Management

Full mine management, supervision and organisation.

### Mine Technical Support

Capabilities to provide technical services and evaluations.

### Drill & Blast Management

Management of drill and blast subcontractors.

### Mechanical Field Service Support

24/7 support onsite assistance available.

### Mine Costing & Assistance

Accurately scoping the requirements for load and haul services.

### Equipment Mechanical Servicing, Repairs & Rebuilds

Maintenance of old and new equipment

## What we have

# The right equipment, strategically deployed.

Our fleet isn't just a collection of machines – it's a carefully curated fleet, strategically built to handle the challenges faced by mining operations. We tailor our equipment to the specific demands of each project, ensuring optimal performance and minimising downtime.

### **Strategic Fleet Composition:**

We invest in equipment that's proven, reliable, and backed by readily available parts and support.

### **24/7 Mechanical Support:**

Our dedicated maintenance teams ensure maximum uptime, keeping your project on track.

### **Scalable Solutions:**

Whether you need a single machine or a full fleet, we offer flexible options to match your project's evolving needs.

### **EXCAVATORS**

20 – 200 Tonne

### **CAT DUMP TRUCKS**

40 – 240 Tonne

### **CAT LOADERS**

19 – 105 Tonne

### **FLOATS**

50 – 100 Tonne

### **CAT DOZERS**

22 – 105 Tonne

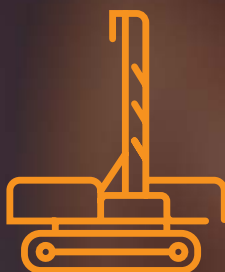

### **CAT GRADERS**

14.5 – 32 Tonne

### **CAT WATER CARTS**

15 – 140 Kilolitres

### **DRILL FLEET**

Schramm Drill Rig &  
Support Fleet

### **FINLAY CRUSHING & SCREENING**

Jaw & Cone

## Workshop support

# ➤ Keeping you operational.

MMS's 10,000m<sup>2</sup> Bibra Lake operations hub provides comprehensive workshop support for our extensive fleet and specialised mining equipment, including:

- > Dedicated workshops for boilermakers and heavy vehicle servicing.
- > Machine rebuilds and restorations.
- > Mechanical equipment servicing.
- > 24/7 mechanical support.

Our commitment to quality workshop support translates to increased operational productivity and enhanced safety outcomes for our clients. We understand that reliable equipment is critical to your success, and our workshop is a cornerstone of that commitment.
